Dear Planning,

I am writing as part of the wider consultation process to lodge my and my wife's support to designate the Clockfields Site of Local Interest for Nature Conservation as Local Green Space.

The designation of green spaces in and around the Clockfields' estate is essential to not only preserve the areas of nature conservation but it is also a necessity for sustaining the intricate balance of the local ecosystem. These areas serve as vital habitats for a myriad of species of flora and fauna. The green spaces also offer invaluable benefits to people, young and old. In addition, these areas provide people with educational, recreational, and spiritual enrichment. Protecting these areas ensures that future generations can enjoy and learn from these irreplaceable resources.

Making the area a designated Local Green Space is an investment in nature and the local community's health and in the well-being.

Regards,
