Dear all,

After attending a recent community meeting regarding the draft Dudley local plans I feel compelled to write.

I write to express my objections in the strongest terms to the plans for 650 houses on ketley quarry.

I outlined all of my concerns about traffic, pollution, schools, doctors, infrastructure and quality of life at the meeting alongside my belief that these will not in fact be affordable homes and therefore not in keeping with the alleged objectives of the plan.

I could write endlessly about each concern I have raised, as a Kingswinford resident already dealing with the daily difficulties of commuting around the area however I am sure you are well aware of the local feeling and if you travel around the area you cannot avoid these issues.

My biggest concern was that no representative was able to adequately address a single one of the concerns raised at the community meeting and offer any assurance around infrastructure, services and the future of children and adults in the area who will have to live with the consequences should these plans go ahead.

Rest assured the community will continue to object in the strongest terms to these plans and myself and my family will support all the way.

Kind regards,

R.Harris
