29 DEC 2023

Dear Madam/Sir

I am writing to express my support for Corbett Meadow in Amblecote to be designated as a SITE OF INTEREST for Nature Conservation

Its an Area of High Historic Landscape Value and a Local Green Space so it needs to be given the same protection as greenbelt.

Its a valuable green lung + space in Amblecote + an important wildlife habitat in particular for Toads, their habitats are being destroyed at a fast rate, we have to remember we share the planet, we do not own it.

Its an integral piece of land to us + the animals + valuable pollinating insects that inhabit it.

It was left to the people of

Stornbridge by John Corbett. He did not leave the land to us so it could be built on, once it has been built on it will be destroyed, we will never get it back.

We owe ^{it to} John Corbett to protect the land he gave us + we owe it to the wildlife that live there, we have to protect them + their environment.

Thankyou

Yours sincerely
