To whom it may concern,

I am writing to inform you of my objection of the proposed plans to build 650 new houses on the ketley quarry site. The infrastructure in local area cannot withstand such a vast amount of housing/occupants which will inevitably lead to even more pressure on the local schools, doctors and an already extremely busy main road. I am not completely against the building of homes but more the sheer quantity suggested on a small area. As a resident of [REDACTED] I must also inform you of my dismay and objection towards the proposed idea to have one of the 3 access points off of Ploverdale Crescent. It is already difficult during peak travel times to get off and on the estate let alone with the possible influx of traffic this estate will bring. My second objection is if the build were to go ahead why the existing access cannot be used .? Why would you want to cut down trees and remove wildlife to form a new road and the costs involved when there is already a marked entry/exit point into the quarry off the main road. This would help ease the possible difficulty of getting out of Ploverdale crescent onto the main road.

Kind Regards
[REDACTED]
