Objection.

Policy DLP2 sets out the strategic approach for the growth network, including the focus of development within the existing urban area, regeneration corridors and the borough's strategic and town centres. In the context of our concerns and objections regarding the Development Strategy, the approach taken to and reliance on the scale of housing proposed within these described Growth Network is objected to. Whilst these locations could still accommodate some development, it must be part of a more balanced portfolio of deliverable sites. The expected delivery of 2,730 dwellings within the Strategic Centres is not deliverable over the plan period, places too greater emphasis on these locations without clear evidence on deliverability, market evidence on demand or housebuilder interest and clear transparent trajectory on delivery (this noting the appended Trajectory which is absent of any detailed explanation or detailed list of supply sites which contributes to the annual expected delivery). The same objection is put to the expected delivery of some 2,322 new homes within regeneration corridors. These objections are in the context of the overall concerns about the undue and unrealistic expectations for delivery within the urban area, repeating past failures for delivery in these locations.

Site specific objections are provided elsewhere in representations by Persimmon Homes including to the Part 2 draft Plan however key challenges associated with these sources of supply are numerous, are not resolved within the plan to demonstrate deliverability and include (but are not limited to);

- Multiple land ownerships constraining delivery
- Timeframes, costs and issues associated with land acquisition

- Relocation of existing businesses and uses on site, including business viability to move and the availability of alternative suitable premises
- Land contamination
- Land stability and former historic uses
- Unsuitability of service and key development infrastructure
- Accommodating policy requirements for sustainable drainage and BNG
- Viability generally
- Ability to accommodate other general sustainable building policy requirements viably.

Q4. Please set out the modification(s) you consider necessary to make the Local Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at Q3. above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The contribution to the supply of housing from these sources is unrealistic and should be comprehensively reviewed. The Plan places too much reliance on housing from these locations within any detailed evidence on deliverability which should be fully expected. Where these sites have been part of previous plan strategies and not delivered, the plan cannot place reliance on delivery of housing at these levels from these sites. The scale of housing proposed is significantly in excess of what could be expected to be delivered within the Plan period. The expected supply needs to be significantly reduced and the trajectory adjusted to more realistic and deliverable levels.

Continue on a separate sheet if necessary.

Please note: *In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.*

After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.

Q5. If your representation is seeking a modification to the plan, do you consider it necessary to participate in examination hearing session(s)?

No, I do not wish to participate in hearing session(s)

Yes, I wish to participate in hearing session(s)

Please note, that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.

Q6. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:

The issues raised and nature of objections means that the examining Inspectors would benefit from further oral submissions being made to fully explore the topic.

Please note, the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.
