I want to PROTECT Corbett Meadows in every way and want my comments recorded as such through local green space sedignation.

I urge you to confirm Corbett Meadows by designating it as recommended in the Dudley Local Plan as a Site of Interest for Nature Conservation, an Area of High Historic Landscape Value and as a Local Green Space.

This will protect a badly needed green lung in Amblecote and of historical and cultural significance for the area, and help conserve a delicate wildlife habitat connected to the Coalbourne Brook Valley. John Corbett left this as a legacy to the people of Stourbridge and it should be opened to the public for their wellbeing. We now know how vital this is for our health and it would be tragic to see a legacy for the public good used for short term financial gain. Surely we can be better than this?

Please ensure my comments reach the appropriate place - I find the portal tricky to use.
